Cut out. The big card goes on the fridge, the small ones go in your pencil case.

HOW I SPOT THE GUESSING MACHINE

Put up on:
_____

1. Whatever can be wrong is usually an AI.
The light switch is never wrong. The translator can get it wrong.

2. Don't believe blindly, don't distrust blindly – check.
However smart it sounds. Especially when it sounds smart.

3. What I never tell an AI:
my name, where I live, which school I go to.

YOU'RE THE BOSS.

THE GUESSING MACHINE

1. Whatever can be wrong is usually an AI.
2. Don't believe blindly, don't distrust blindly – check.

AI isn't a friend, an enemy, or magic – it's a tool. You're the boss.

My name, where I live, my school? I keep that to myself.
